---

### **BIOMEDICAL ENGINEERING TECHNOLOGIST**

Biomedical Engineer Technologist with 7+ years of experience in medical device installation, calibration, troubleshooting, and maintenance in clinical and multi-site environments. Experienced in cGMP/ISO compliance, documentation, and quality systems. Organized, adaptable, and able to manage multiple priorities in fast-paced environments.

---

### **CORE EXPERTISE**

- Installation, calibration, and maintenance of medical devices
  - Troubleshooting, diagnostics, and root cause analysis
  - Use of biomedical/electronic testing equipment
  - SAP, CMMS, and technical software tools
  - Technical reporting and ISO/cGMP compliance
  - Field service support and clinical team coordination
- 

### **PROFESSIONAL EXPERIENCE**

**Biomedical Engineer Technologist**, Spirita plasma, Tehran, Iran **Aug 2022 – Sep 2025**

- Provided on-site technical support across hospital and clinical locations, ensuring timely service and customer satisfaction
- Performed preventive maintenance, upgrades, and corrective repairs on medical and laboratory equipment
- Installed, configured, and validated medical devices with clinical teams and healthcare practitioners
- Troubleshot complex electromechanical and automated systems, reducing downtime by up to 35%
- Provided remote technical support via phone and email to engineers and service providers
- Supported and trained third-party service engineers to improve technical performance and service quality

**Technical Manager**, Faradeed Adac International Co., Tehran, Iran **Aug 2017 – Aug 2022**

- Managed service operations and KPIs including response time, first-time fix rate, and documentation accuracy
  - Completed service documentation and work orders in CMMS/SAP systems with full SOP compliance
  - Ensured adherence to cGMP, ISO, and healthcare regulatory standards
  - Conducted inspections, functional testing, and performance verification of equipment
  - Installed and serviced sterilization and laboratory equipment, reducing emergency repairs by 22%
  - Executed preventive maintenance schedules, reducing failures by 28%
- 

### **CERTIFICATIONS AND EDUCATION**

**Scientific Report Writing Fundamentals, GMP/GLP/GCP, QA/QC**, BioTalent Canada **Mar 2026**

**Standardizing and Calibrating Medical Devices**, Institute of Standard Authorization of Iran

**M.Sc. Mechatronic Engineering**, Tehran Azad University, Science and Research Branch

**B.Sc. Biomedical Engineering**, Tehran Azad University, Science and Research Branch
